NASA Glenn Research Center Internship

Program Description: This site contains information about various educational programs available at the NASA Glenn Research Center including the High School Internship.

Program website: <https://intern.nasa.gov/>

Progressive Insurance Summer Internship

Program Description: This internship gives a student the chance to further develop his/her technical and communication skills by handling a wide range of responsibilities, maintaining high-level attention to detail and working in a 24X7 environment. The student will participate in the planning and execution of enterprise-wide projects with our award-winning IT group, known for our innovative approach to technology. He/she will also work closely with an experienced mentor, who will serve as a guide through development. These are full-time, paid internships.

Western Reserve Historical Society Public History Summer Internship

Program Description: The Summer Internship in Public History offered throughout the Western Reserve Historical Society is ideal for those thinking of entering into or working with: Museum Management, History Majors, Fundraising, Education, Interpretation, Non-Profit Management, Curatorial, Registrar, Exhibit Design/Production, Research and other jobs related to Historical Society functions. All interns participating in this particular internship program attend classes once a week for 9 weeks during which you learn about museum and non-profit operations. The rest of the week is spent working and learning in your chosen field. Summer Public History Internships are available at both the Cleveland History Center in Cleveland's University Circle, and at Hale Farm & Village in Bath, Ohio. Interviews for the summer internship in public history take place in April and May. Internships will be awarded based on applicant interest and aptitude, as well as available positions.
